QUALITY CONTROL

With over 16 years in the global food industry, Ocean Treasure has its own well trained and experienced team of inspectors in China, Vietnam, and India. Ocean treasure is the BRC, MSC, and ASC certified body as well as our inspectors.

For each order, Ocean treasure picks the samples randomly from the cold storage to avoid arranged samples. Our random sampling quantities are more than the average standard of the inspection industry thus to ensure the accuracy and reliability of our inspection service. A detailed report based on the genuine inspection and 100+ photos of the products and processes are provided in each service. Our professional report with all significant information will be delivered within 24 hours after inspection.

Ocean Treasure's whole operation system and inspectors are trained and certified under BRC, MSC, and ASC standards, maintaining the highest A Grade. We are an important QA role in the global food value chain.

Our Systematic, efficient, and swift Pre-shipment inspection (QC) service and Loading Survey now available for any clients who require the pre-shipment inspection for the finished products and loading (for packed food only). Our aim is to be your eyes in distant countries, presenting all the facts of your ordered products and therefore securing your food business. We will serve you with great confidence.
