

# SERVICES OFFER

With over 12 years in the global seafood industry, Ocean Treasure has its own well trained and experienced team of inspectors in China, Vietnam, and India. Ocean treasure is the BRC, MSC, and ASC certified body as well as our inspectors.

For each order, Ocean treasure picks the samples randomly from the cold storage to avoid arranged samples. Our random sampling quantities are more than the average standard of the inspection industry thus to ensure the accuracy and reliability of our inspection service. A detailed report based on the genuine inspection and 100+ photos of the products and processes are provided in each service. Our professional report with all significant information will be delivered within 24 hours after inspection.

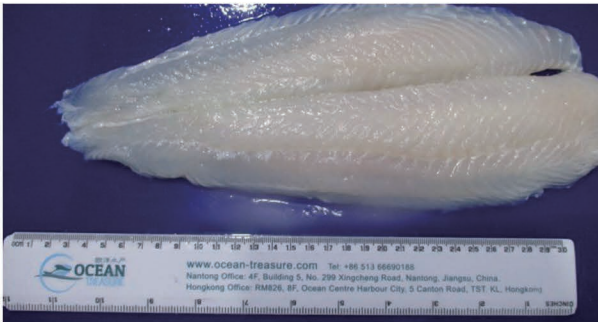

Ocean Treasure's whole operation system and inspectors are trained and certified under BRC, MSC, and ASC standards, maintaining the highest A Grade. We are an important QA role in the global seafood value chain.

Our Systematic, efficient, and swift **PRE-SHIPMENT INSPECTION (QC) SERVICE** and **LOADING SURVEY** now available for any clients who require the pre-shipment inspection for the finished products and loading (for packed food only). Our aim is to be your eyes in distant countries, presenting all the facts of your ordered products and therefore securing your seafood business. Ocean Treasure will serve you with great confidence.

# OUR SERVICES

## Pre-shipment Inspection (QC) service:

### 1. Sampling Details (40FCL)

- IQF in Bulk: 20Kg random samples
- IQF in Retail pack: 20 individual packs from 20 separated cartons
- Interleaved or block frozen: 6-8 blocks (full blocks)

\*For 20'fcl, sampling quantities are half as the 40'fcl.

### 2. Inspection details:

- Temperature
- Appearance (packed, unpacked, frosted, and defrosted)
- Gross weight, net weight, glazing check etc.
- Specifications: Size, Counting, dimension and uniformity check etc.
- Sensory evaluation: odor, texture, color (before & after defrosting), general freshness
- Foreign matters
- Cooking test

## Loading Survey:

- Check the cleanliness of the empty container before loading
- Ensure the container to be cooled down before loading, and record the temperature when loading starts
- Record the specifications and quantity of each row during loading
- Full record of the loading process
- Record the container number and seal number on the container lock
- Issue the loading supervision report to the customer within 24hrs (1 working day)
